## Profile

I am a Full-Stack Developer based in Japan. I have good experience collaborating in teams and have worked on independent projects. I have excellent control over Ruby and Rails, and I am comfortable working with StimulusJS, Javascript and its libraries. I am familiar with Agile development, fetch API, Ajax. I can use HTML, CSS, SCSS and Bootstrap as I love doing frontend. Backend is one of my strong suits. I am walking my way through React and integrating Rspec tests to my Portfolio.

Skills

html & css *(scss)*	Ruby on rails

Heroku	PostgreSQL	Git

Javascript	Github	React

Soft Skills

teamwork | convergent thinker | fast learner

Projects

TwoByFour - Beats Into Your Brain,
- Lead Developer 🔗
Music based edutainment karaoke app built with Rails on the back-end and PostgreSQL for the database. Figma for prototyping. Html, scss and, ES6 JS, fetch API and Stimulus JS for front-end. Customized audio player and recorder using JS. Google Speech API for transcription and hosted on Heroku.

Colabo, *- Lead Developer* 🔗
Social collaboration app with Rails as backend framework. Using JS libraries like mapbox.js and places.js for precise-location for projects.
